HAVE A SAFE HARVEST!!!!

Hip Hip Hurray! I did get a new hip the other day.

I would like to thank everyone for everything that was done for us while I recovered from my hip surgery in early May. Yvette and Tracy for the awesome job of keeping the Credit Union running smoothly. I didn't have to worry about a thing.. The Board of Directors for being so supportive and for their kindness. I am so lucky to work for such wonderful people. To my family, my sons, daughters-in-

law and the grandkids they were all amazing to say the least. Dave was one heck of a nurse. The girls at the Ness County Therapy are the Best of the BEST! I can't express enough how much it all meant to me. Ness County is a wonderful place to work and live.

May God bless
each and everyone
one of you!!

Card Skimming Fraud: How to Stay Safe

Debit and credit card skimming fraud is on the rise and with scammers, hackers and breaches, it's hard to know if your information is safe. What is skimming? (see infographic beside)

Skimming is the term used to describe the fraudulent collection of card (credit or debit) information and PINs that have been used at an ATM or outside gas pump. A device is placed over the card reader that collects the data stored on the card. Depending on the capabilities of the particular skimmer, the reader can

pick up information from both pin and non pinned transactions.

How can you stay safe?
Regularly check card statements
Examine card readers for any alterations before use
Pay inside at the register or pre-pay when getting gas
Be aware of your surroundings and report any suspicious activity to the police (911).
Contact your credit union immediately if you suspect fraudulent activity on your cards
