LONDON, June 6 (AP)—The Berlin radio said today that "combined British-American landing operations against the western coast of Europe from the sea and air are stretching over the entire area between Cherbourg and Le Havre."  
 The broadcast declared grand scale amphibious operations are under way on a broad front between the mouth of the Seine and the estuary of the river Vire.  
 "A large number of Allied landing boats of various types and light Allied naval forces in considerable strength are taking part," Berlin added.  
 "Six heavy Allied warships and 20 destroyers are off the mouth of the Seine."  
 Three German news agencies tonight flashed word to the world that an Allied invasion of western France had begun with Allied parachute troops spilling out of the dawn skies over the Normandy Peninsula and sea-borne forces landing in the Le Havre area.  
 The Germans also said Allied warships were furiously bombarding the German-held French port of Le Havre at the mouth of the Seine River, 100 miles west of Paris.  
German shock troops also were landed against Allied troops rushing ashore from landing barges, the broadcast said.  
 were under heavy air attack, are also important French ports along the invasion coast 150 miles northeast of Le Havre.

How To Stay Cool This

**SUMMER**

Keep cool this summer and save energy costs by following these simple tips around the house:

1. Use portable or ceiling fans. Run ceiling fans counterclockwise. Moving air helps cool your body, which makes you feel cooler.
2. Turn off unnecessary lights. Much of the energy from a light bulb is heat.
3. Keep the sun out of your house. Close blinds, shades, or curtains during the hottest part of the day.
4. Use a microwave oven instead of a conventional oven to save money and keep your kitchen cooler. The indoor stove or oven can raise your kitchen's temperature as much as 5 to 10 degrees. If cooking indoors, cook during cooler early morning and evening hours.
5. Wear thin, loosely fitting clothes made from lightweight fabrics and you may not have to keep room temperatures as cool.
