Strategic Planning Session

Held on August 10, Wednesday, 5:30 p.m.

Tana Hoffman, Heartland Credit Union Association facilitated us through this years' planning session. Board Members, Committee Members and Employees were in attendance. As you know we have not found a replacement for the manager's position. A big part of this meeting was spent having face-to-face discussions about what this means for our credit union. Our goal during the meeting was to answer questions and engage in thoughtful and meaningful conversations that will help us make important decisions for the credit union and its membership.

BACK TO SCHOOL FUN TIDBITS

- In the 1300s, a pencil was a fine paintbrush made of fine animal hair. The average pencil can be sharpened 17 times and write about 45,000 words or draw a line 35 miles long before it's out of service. Pencils can also be used in zero gravity, upside down, or even underwater. But teachers resisted erasers when they were first invented because they thought they'd encourage kids to make mistakes. Pencils are the top-selling back-to-school item.
- 2.4% of children worldwide suffer from Didaskaleinophobia, which is the fear of going to school.
- The average American family spends between \$500-\$700 back-to-school shopping each year. That means Americans spend over 8 billion dollars on back-to-school.

The Last Word

Worrying is like sitting in a rocking chair. It gives you something to do, but it doesn't get you anywhere.
